

Web Development CA-1

Marks 25%

Date of Assignment: 22/2/2017

Due Date: 22nd March 2017

Assignment Overview

Select a company on Westmoreland street. Although generally most companies have a website, pretend that they do not! Design a website for this company.

Do not just steal their website, the code must be your own design and implementation

The website must have the following pages (No more pages than this can be added)

- Index
- About Us
- Contact Us
- Products / Services
- Gallery

The design of the website should reflect the design and colour scheme of the business that you have selected.

Note

- This is an individual assignment, if you submit another student's work, both will get a zero grade
- Late submissions will lose 5% of the grade per day
- No code can be taken off the Internet, all work must be your own.
- No Content Management Systems e.g., Wordpress can be used for this assignment.

Deliverables

If you decide to do the extra parts in the merit and distinction category, add an additional text file outlining what you did and the links to the web host you used.

Free Web Hosting

Marking Scheme

Task	Grade
Correct Number of Pages added, with links to each of the pages	2
Colours that have been selected for the website mirror those used by the business	2
All font sizes on the website are correctly sized and uniform across the entire website. E.g., headers are large, body content is small	2
Breadcrumbs have been added to all of the pages	2
Correct use of DIV tags for laying out the entire web page	2
Overall quality of website including headers and footers on every page on the website	2
Correct folder structure for CSS/ images and additional resources	1
HTML tags are balanced and indented correctly for ease maintenance	2
Merit	
Considerations added to the website for people who are visually impaired (colour blind / hard of sight)	2
Distinction	
Interactive content has been integrated into the website. Maps / Video	3
Website should be hosted on an online hosting provider.	5
